**DETAILED ACTION**

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1, 7-8, 20, 26-27, 39, 35-36, 59 and 62-71, drawn to a television-based revenue generation system wherein gathered TV context information is transmitted from a user's device to an issuer of an account and subsequently digitally signed to form an authorization token and transmitted to an acquirer, classified in Class 725, Subclass 4.
  - II. Claims 72-75, drawn to a television-based revenue generation system wherein a user's device is enabled to digitally signed gathered TV context information and transmit it to a merchant, classified in Class 725, Subclass 2.
2. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
